

# Five Ways HealthInsight Makes HIPAA and MIPS Easier

Many health care organizations struggle to comply with required HIPAA regulations and many have forfeited important Merit-base Incentive Payment System (MIPS) incentive funds. HealthInsight is proud to announce its No Practice Left Behind initiative to ensure that every health care organization can affordably comply with HIPAA and MIPS! Below are five simple steps you can take today.

## Visit our HIPAA PASS Webpage

<https://healthinsight.org/hipaapass>

Here you will find many free educational opportunities, tools, policy and procedure templates, and other important materials to assist you with your HIPAA compliance efforts.

## Call or Email for a Free HIPAA Checkup

(307) 258-5322 or [mnorby@healthinsight.org](mailto:mnorby@healthinsight.org)

Have an easy conversation with our certified HIPAA professional and gain confidence about your current HIPAA and MIPS readiness, or find out what steps you can take to benefit your organization and patients.

## Attend our Free Educational Webinars

<https://healthinsight.org/hipaapass#events>

Whether you are new to HIPAA or just need a refresher, you will find our HIPAA webinars informative and helpful. Join us as we share our HIPAA knowledge and experience, and answer your HIPAA questions.

## Register for our Online HIPAA Privacy and Security Officer Boot Camp

<https://healthinsight.org/hipaapass#events>

Whether you are a single provider practice taking care of your community or a complex health care network serving multiple states, you are required to have an official privacy officer and security officer. Attend our affordable, four-hour, online HIPAA boot camp and let our qualified HIPAA professionals teach you how to successfully perform these duties.

## Take Advantage of our Low Cost, Comprehensive HIPAA Services

(307) 258-5322 or [mnorby@healthinsight.org](mailto:mnorby@healthinsight.org)

Federal HIPAA regulations and the advancing care information category (ACI) of MIPS require you to perform an audit-worthy security risk analysis and complete a risk management plan to become HIPAA and MIPS compliant. HealthInsight will guide you through the process and provide you with the policy and procedure templates, tools, and materials necessary to comply with HIPAA, pass an audit, and receive the MIPS incentives you deserve.
